NUMBER 32.

DESPERATE MOBI!

A Mob Drives Italians from their Work.

The Populists of Kansas Holding their Convention.

Pennsylvania Strikers on Trial for Rioting and Murder.

WASHINGTON NEWS.

Pittsburg, June 15.—The Standard Construction company made another attempt this morning to start work on the Breton avenue improvement with Italian labor. At once began a mob gathered and hurled stones at the workmen, driving them away. One Italian ran down the street howling, the mob with drawn knives after him. He was saved by a platoon of police. Work was started again at nine o'clock under police protection. The mob is rapidly increasing, all armed and ugly. A bloody conflict is momentarily feared. All reserves are called out.

Unlabeled, Pa. June 15.—The trial of sixty strikers, charged with rioting, in which several men were killed, began today.

This morning 1,000 strikers gathered near Trolleys works, it being reported that work would be resumed. They are held in check by ten companies of deputies, who patrolled around the works. Mine owners now have several hundred men at work, making more gains this week than since the strike began.

Against Free Wool.

Washington, June 15.—The presentation to the senate of numerous petitions this morning from societies against the provisions of the income tax caused Vest, on behalf of the finance committee, to declare that the committee had agreed to an amendment exempting benevolent and fraternal societies from the provisions of the bill.

The bill providing for additional circuit judges passed.

The tariff bill was then taken up, when Sherman delivered a powerful argument against free wool. Sherman confined his remarks to the effect free wool would have on the government revenue and industry itself, showing it would be an outrage to make the change. Dubois, Illinois, followed in an elaborate speech also against free wool.

Meekley League.

Bloomington, Ill., June 15.—The second annual convention of the Illinois State Meekley League which opened here yesterday was resumed this morning with a considerable increase in the number of delegates present. This morning's session was given up to routine business, and this afternoon the delegates were entertained as the guests of League No. 17, of this city.

A Sister Arrested.

Wheeling, Ohio, June 15.—Firm measures are being taken at last. The United States marshal arrested Cady, a rioter, this morning, and put a stop to trouble.

Kansas Populists.

Topeka, June 15.—The populist state convention this morning elected John Presidential chairman of the state committee and adopted a platform for state government, endorsed the Omaha principles, declares for free coinage of silver at the ratio of 16 to 1, unalterable opposition to the issuing of interest bearing government bonds, condemn national bank system and demands woman's suffrage. Adjourned until this evening.

Important Meeting.

New York, June 15.—Whether or not the Southern Railway and Steamship association, which is made up of all the lines in southern territory east of the Mississippi, shall go out of existence is the question to be decided by the meeting of different representatives of the different lines concerned that is in progress to-day at the Hotel Waldorf. The uniform rules for the government of the association have created great dissatisfaction, and the indications are that it will be disrupted and that two associations, the one composed of eastern and the other of western lines, will be brought into existence.

National Editorial Association.

Asbury Park, N. J., June 15.—All the arrangements have been completed by the local committee for the tenth convention of the National Editorial Association during the first week in July, and despite the fact that quite a number of editors from the east and west will be participat-

ing in European excursions at that time the reports already received make it certain that it will be the greatest gathering of newspapermen ever held in the country. The entire state associations of Pennsylvania, New York, Connecticut and Texas will attend in a body. Among those who have promised to deliver addresses are ex-Postmaster General Thomas L. James, Col. A. K. McClure, of the Philadelphia Times, Gen. Charles H. Taylor, of the Boston Globe, Joseph Howard, Prof. Joseph French Johnson, of the University of Pennsylvania, and Bill Nye. The delegates will be entertained by ocean trips, a trip up the Hudson, banquets, clam bakes, drives and other diversions.

Building Associations.

Galesburg, Ill., June 15.—Delegates from nearly all of the building associations of the state assembled here to-day in the fifteenth annual convention of the Building Association League. Hon. Geo. F. Penfield, the president, in his annual address said that notwithstanding the general depression during the past year the associations generally had maintained a highly satisfactory condition, and that the outlook for the ensuing year was decidedly bright. Papers were presented on a large number of subjects relating to the general work and conduct of building associations, and delegates were elected to the National League convention, to be held in Buffalo next month.

Coming Home.

Chicago, June 15.—According to dispatches received at the headquarters in the Temperance Temple, Miss Frances Willard, accompanied by Miss Anna Gordon, sails for home to-day, after an absence of a year on the steamship Teutonic. Other advice from abroad have stated that she was about to visit the kings of Italy and Greece in company with Lady Somerset to present petitions from the Women's Christian Temperance Union on the social evil question. This, however, is not considered probable, as she is to participate in the prohibition of Canada a few weeks hence.

Coaching Exhibition.

London, June 15.—Hon. A. G. Cammell, of Philadelphia, ex-vice president of the Pennsylvania railroad, James Gordon Bennett and Fairman Rogers, of the New York Four-in-Hand club are among the American exhibitors at the Coaching exhibition which opened here to-day. The Prince of Wales, the Duke of Wellington and Marlborough, and many other enthusiastic patrons of coaching are also well represented.

Dedication of a Monument.

New York, June 15.—Vice President Stevenson and a number of members of both houses will arrive here this evening en route for Dobb's Ferry, where to-morrow the granite shaft on the grounds of the house in which Gen. Washington planned the campaign against Yorktown in 1781, will be dedicated. President Cleveland will not be able to attend.

The Morocco Affair.

London, June 15.—Lord Dufferin, Paris ambassador, to-day had an interview with the French government and will work in accord with France in respect to Morocco. Both powers are sending war ships there and may take possession of the country, despite protests from Spain.

Murder and Suicide.

Alma, Neb., June 15.—Murder and suicide reported this morning from Harlan county. Louis Christensen, a farmer, during a quarrel shot his wife four times, killing her. He then killed himself. They were prosperous and the people of the neighborhood are greatly excited.

Trouble Ended.

Coal Creek, Tenn., June 15.—Mining trouble ended here to-day, and the men all resumed work at the old scale. A great number of objectionable miners were discharged. It is believed the entire strike is over.

Use Still.

Washington, June 15.—The compromise Use reservation bill passed the house to-day and locates the Indians on the western part of the present reservation and adjoining sections of New Mexico.

It's a Boy.

A very interesting telegram was received at the store of Lesser & Levinson late yesterday afternoon. It contains about these words, being dated from Winslow, Arizona:

"It's a boy; mother and child doing nicely."

The brief but self-explanatory message was signed by Julius Lesser, the big merchant of Winslow, and a brother of Louis and David Lesser of this city. Mr. and Mrs. Julius Lesser, the happy father and mother, are well known to many Albuquerqueans, and their congratulations, with those of Mrs. Cramer, go out to Winslow this evening through this article. Success, health and a long life to the little fellow.

WOOL TARIFF!

Senator Teller Speaks in Favor of a Protective Tariff.

Strikers and Anarchists Causing Reign of Terror to Prevail.

Bridges and Property Being Blown Up with Deadly Dynamite.

BIG FIRE IN NEW YORK.

Washington, June 14.—Senator Teller made a great speech this morning on the question of free wool, urging the importance of protection of that important industry, and opposed putting the American wool product upon a level with Australian and other countries, where wool can be produced at a minimum cost. He said free wool was all that was left of the democratic party. He dwelt upon the unfairness of the Cleveland policy and said if the democrats were playing to catch the manufacturing districts they would find it a losing game. Every republican senator would be found solid for a duty on wool.

Making Things Lively.

Julienburg, Colo., June 14.—The commonwealers to the number of 500 are growing desperate and captured an engine which was ditched and the citizens tried to get the men out of town by wagon, which the men refused. All freight trains rush through without stopping and passenger trains are guarded by sheriff and posse. The men threaten to rob stores if they don't get away and the citizens are armed and there is much excitement.

Homeopathic Doctors.

Denver, June 14.—Delegates to the American Institute of Homeopathy began to arrive this morning by the hundreds. There are six hundred medical visitors in the city this afternoon, and among the prominent professors are Wm. Tod Edmund and Norton of New York, Drs. Chapman and McClelland, Pittsburg; Prof. Kroft of Cleveland, Fisher and Ledlam, of Chicago. The convention opened at 8 o'clock.

Calling for Arms.

Toledo, O., June 14.—An order was received here to ship 180 stands of arms from Fort Heath to the scene of trouble in the Ohio coal mines. It is reported that the strikers are plotting to blow up a large number of bridges on the Wheeling & Lake Erie railway and United States marshals will take action.

Fired on Picket Guard.

Beach City, Ohio, June 14.—Miners fired on Barclay Dubbe, a picket stationed a mile below the city this morning. The fire was returned and the patrol quickly formed, but no one was captured. An attempt was made last night to destroy the bridge near here, but it failed.

Armed Plate Frauds.

Washington, June 14.—The investigation into the armed plate frauds continued to-day. Informer Bill testified and showed by the records that Superintendent Cline altered the reports for government inspection and made false reports the entire time he occupied the position.

Bridge Burned.

Pittsburg, June 14.—Two hundred Monongahela river strikers at 2 a. m. hearing that new men were expected to arrive assembled at the bridge on the Pittsburg, McKeesport and Youngstown railway, and drove the watchmen off and burned the structure.

Frederick Case.

Chicago, June 14.—Judge Payne this afternoon refused a continuance in the Frederick case and will set a date for the insanity trial to-morrow.

Thirty Persons Burned.

Dublin, June 14.—A boat containing 80 harvesters was crossing to the west port County Mayo this morning and capsized, drowning thirty persons.

Lord Chief Justice Dead.

London, June 14.—Lord Chief Justice Coleridge died this afternoon.

Trainee Shooting Frequent.

Omaha, June 14.—Because of the absence from the state of the United States marshal, the authorities at Washington will not order troops out to protect the Union Pacific train from industrialists near Julesburg. The marshal says that if necessary the road will send out a train with 150 deputies this afternoon.

Armed With Dynamite.

Beach City, O., June 14.—Between two and three thousand miners held a meeting here last night. They have thirty pounds of dynamite in their possession and will blow up the first coal train that attempts to pass.

Big Fire.

Panama, June 14.—A serious fire, wrecking \$2,000,000 property, has devastated Panama and has been raging since yesterday morning.

Fatal Accident.

Ottawa, Quebec, June 14.—In a terrible accident here three were killed and three seriously hurt. The men were charging holes with dynamite blasting rock at the Bonaventure canal, which prematurely exploded.

Subterranean Fire.

New York, June 14.—A fire started

this morning in the paper district on Elm and Duane streets and before it was got under control three buildings were entirely destroyed. The loss is over a quarter of a million. There were no fatalities, but many girls were carried out of the buildings half suffocated.

More Deviltry.

Greenburg, Pa., June 14.—This morning the coke strikers blew up the pump house of McClure coke company at the Atherton works.

It Don't Pay to Fool With Railroads.

Early on the morning of the 7th inst., a band of 250 Coxeites captured a freight train on the Atlantic & Pacific railroad at Mojave and ran it to Barstow. As soon as the officials were apprised of the outrage they immediately telegraphed the United States marshal at Los Angeles, who at once proceeded to Barstow with 100 deputies, arrested the entire band of tramps, and took them to Los Angeles. The men were prosecuted by the United States district attorney in the name of the government, as their offense was charged to be contempt of court of the United States, and Judge Rose found them guilty and sentenced each man to four months imprisonment. The punishment is the most severe yet administered in such cases, and will probably put a stop to future such attempts on the part of any body of men banding themselves together to steal and destroy property.

Netting Liquor to Indiana.

Last night, Jose Montoya, the deputy United States marshal, with headquarters at Bernalillo, brought to this city George Munch, of Cabezon, and lodged him in the county jail on an indictment found at the last term of the court, charging Munch with selling liquor to Indians. The officer returned to Bernalillo this morning, but just before the train left he stated that he followed Munch for a number of miles, finally capturing him near the Bernalillo bridge across the Rio Grande.

New Officers of W. C. T. U.

President—Mrs. M. J. Borden, Albuquerque.

Vice President at Large—Mrs. L. N. Higgins, East Las Vegas.

Corresponding Secretary—Mrs. M. P. Starnes, Albuquerque.

Recording Secretary—Mrs. I. S. Tiffany, Socorro.

Treasurer—Mrs. M. C. Reynolds, Las Vegas.

Organizer—Miss E. M. Tucker, East Las Vegas.

Fight Over a Horse.

"Shorty" Davis, one of the most diminutive specimens of humanity in the city, still very muscular for his size, had a fist fight with Alderman Grande late yesterday afternoon. The police had taken up as stray several burros, and "Shorty" purchased one of the best from the marshal. He was loading the burro with mining supplies, for the purpose of starting for Cochiti, when the alderman put in an appearance and claimed the animal. "Shorty" objected, whereupon the alderman landed heavily upon the diminutive individual, knocking him flat to the ground. "Shorty" recovered himself promptly, and in retaliation drove out his right hand, catching the alderman square on the nose and eyes which assumed an inky appearance immediately. Both were placed under arrest, and this evening at 6 o'clock, before Justice Burke, who is acting police magistrate during the absence of Justice Lockhart, they will have a hearing.

Sheep Baiter Attacked.

James Stinson, the Los Cerrillos meat marketer and a partner with J. E. Haines in the raising of sheep east of the city, came down from the north last night, returning to Los Cerrillos this morning. Messrs. Stinson & Haines have about 15,000 pounds of wool in sacks stored away at Gross, Blackwell & Co.'s, but they do not care to sell until the price for wool increases or the tariff question is settled one way or the other. The firm has just turned over to C. B. Randall, of Nebraska, 12,000 sheep, this number being about what Messrs. Stinson & Haines have handled the past season.

Accident at Williams.

A. R. Jones, with his right leg broken in two places below the knee, was brought to the Atlantic & Pacific hospital from Williams this morning. Mr. Jones states that he had finished his day's work and was walking on a plank sidewalk toward his home, when he stepped into a hole and fell, breaking the right leg just below the knee as at the ankle. He is a switchman in the Williams yards of the Atlantic & Pacific.

The Fry Matter.

George B. Fry, of Marcus Fry, deceased, the younger insurance agent who got tangled up with Mrs. L. A. Butler in a scandal, and G. E. McDowell registered last night at the Hotel Columbus, leaving this morning for Phoenix, Arizona, on legal business in connection with a suit growing out of young Fry's leaving to the woman the \$10,000 insurance policy he carried on his life. Mr. Fry left word with Mrs. Lockhart that he would return to this city in a few days.

A Veteran of the Mexican War.

Oak Harbor, Ohio.—I met George O. Mumery an old veteran of the Mexican war on the street to-day who told me that after reading about Simmons Liver Regulator he bought a bottle, and the first three doses gave him immediate relief.—Geo. Conlin. Your druggist sells it in powder or liquid. The powder to be taken dry or made into a tea.

LABOR TROUBLES!

They Continue in Many Portions of the Country.

Coxey and Brown Peacefully Visit the Capitol.

Indian Territory Strikers Being Driven by Troops into Texas.

TERRIBLE FIRE DAMP EXPLOSION.

Pittsburg, June 15.—A riot occurred on the southwest branch of the Pennsylvania railroad this morning, in which 800 miners were engaged. A coal train was stopped at Shop and the engineer compelled to sidetrack it. The rioters also tore up the bridge.

Coxey at the Capitol.

Washington, June 15.—Coxey and Browne made their appearance again at the Capitol to-day and this time actually delivered remarks which they were not permitted to deliver from the main steps of the Capitol on May 1. At 9 o'clock this morning they appeared before the senate committee on education and labor and for hour and a half talked on bonds.

Investigating.

Washington, June 15.—The sugar investigating committee met this morning with Theodore Havemeyer of the sugar trust as a witness. Havemeyer explained that he attended to the practical affairs of the American Sugar Refining Co., such as the manufacture of sugar, and the purchase and finding of machinery. He and Senator Allen had a long passage of arms over the attempt of the senator to bring out a connection between the trust, and the senate committee has decided to summon every member of the senate before it.

Coxeyites Arrested.

Springfield, Ill., June 15.—Marshal Brenton arrived here this morning on a special train with twenty-six Coxeyites, who for twenty-four hours held up a freight train on the St. Louis, Evansville & Louisville railroad at Fairfield. Late advice from Mount Olive stated that the miners had broken out and were stopping trains. The deputies are powerless and orders were telegraphed to arrest all the ringleaders and swear in more deputies. The twenty-six Coxeyites are being tried this afternoon.

Cruelty Charged.

Columbus, Ohio, June 15.—A telegram from John McBride, president of the United Mine workers, to Cleveland several days ago was made public to-day. The despatch urged the president to withdraw the troops in the Indian territory, who are driving the strikers and their families out across the Texas frontier where they are left to die.

Mining Bill Passed.

Washington, June 15.—The senate bill to amend the law in relation to mineral lands and mining reserves was taken from the calendar and passed. The tariff bill was taken up this morning, the pending question being as has been since Tuesday morning, whether wool be struck out of the dutiable list.

All Quiet.

Bellaire, Ohio, June 15.—To-day finds affairs quiet at the seat of mining troubles. No disorder is expected. A mass meeting will be held here this evening by the miners to vote on the compromise. Soldiers remain on guard.

Homeopathic Institute.

Denver, June 15.—The American Institute of Homeopathy this morning opened with Dr. Kraft, chairman. Able lectures were delivered, followed by papers read from English, French and German homeopaths.

Silver Conference.

Washington, June 15.—A silver conference is called by Mexico to be held some time this year. Peru and Argentina will send delegates, and China and Japan and all silver using nations will be asked to participate with them.

Wool Tariff.

Washington, June 15.—The amendment offered by Senator Teller to have rates on wool the same as in the McKinley classification, was defeated, 29 yeas to 35 nays.

Two Hundred Killed.

Vienna, June 15.—Five distinct explosions of fire damp occurred in the coal mines at Karmin, Slovenia, during last night. Two hundred miners were killed and many maimed. The mines are burning fiercely.

Knights of Labor Secrecy.

Philadelphia, June 15.—Ex-General Master Workman Powderly of the Knights of Labor seems determined to maintain his position in refusing to turn over to the executive board the documents for which it recently made demand, and as a result the temporary edict of suspension remains in force. It is stated that among the property withheld is the only copy of a secret ritual necessary to every lodge, and that as no other copy exists this ritual cannot be brought into use. A member of the executive board says that this is a secret work of the "Philosopher's Stone" which Powderly received from the late Uriah S. Stephens, and which should be conferred on numerous members who

have earned the degree under a special commission issued by the general master workman for doing a certain organizing work within a given time. To this Mr. Powderly replies that the degree was given to him on condition that he should never impart it to any undeserving or unworthy person, and that he therefore cannot disclose it to the general executive board. He is willing, however, to confer the degree upon those entitled to receive it. And here the matter rests.

Good Roads Advocates.

Lockport, N. Y., June 15.—Interest attaches to the annual convention of the New York State League of American Wheelmen, which opened here to-day, from the fact that it inaugurates the appearance of the League in politics. It has been decided by the national officers to take up the issue of good roads, and to support only candidates for public office who will pledge themselves to this movement. President Lucum, of the National League, will open the campaign in a speech to-morrow, and after several addresses in this state will go to New Jersey, Pennsylvania and the west.

English Commerce.

London, June 15.—The thirteenth annual report of the London chamber of commerce has been issued to its members in printed form. Speaking of the commercial position of Great Britain among the nations, it says that both facts and figures indicate that there is no weakening in the hold of the United Kingdom in comparison with its chief competitor, Germany, France and the United States upon either the import or export trade of the world.

Tried to Fire a Mine.

Bevier, Mo., June 15.—An attempt was made this morning to burn mine 42. The incendiaries got within thirty feet of the building, when the guard fired and wounded one of them.

Marching Home.

Denver, June 15.—The Colorado National guard will return to this city from Cripple Creek this evening. About 300 will be there and stationed at various points.

Armed Plate Frauds.

Washington, June 15.—Bill continued his testimony to-day before the house naval affairs committee relative to alleged armed plate frauds.

Decided in Favor of the Democrats.

Springfield, Ill., June 15.—The supreme court to-day decided the senatorial apportionment cases in favor of the democrats.

Fired on by Guards.

Pana, Ill., June 15.—This morning about 3 o'clock a gang of strikers attempted to approach the Penwell coal shaft, but were fired on by the guards and all escaped.

The Firemen's Convention.

The program for the meeting of the second annual convention of the New Mexico association of Volunteer Firemen, which convenes at East Las Vegas at 10 o'clock a. m. July 5, 1894, is about arranged by the president of the association. Hon. W. M. Berger, one of the old and true firemen of the Santa Fe fire department, is selected to prepare a ten minute paper on "The Volunteer Firemen," and the gentleman accepts the invitation in a pleasant letter to the president. M. Cortinas, chief of the Socorro fire department, is selected to prepare a paper on "The Spaniards as Firemen."

A letter of acceptance from Mr. Cortinas is looked for in a few days. H. S. Knight, who has had experience in the training of hose teams in Colorado and New Mexico, is asked to prepare a paper on "How to Train a Hose Team." Interesting reports will be read by the president, secretary, treasurer and other officers of the association. The first session will be taken up in organization and hearing the report of committee on credentials; the second session—the morning of the fourth—in listening to addresses and reading of papers, and the third session in the election of new officers, selection of the next place of meeting, etc.

Lost Sheep.

Juan Antonio Chavez, of San Pedro, is in Santa Fe and states that Jose Manuel Baca, of Bernalillo county, to whom he last year let out 900 sheep on shares, has disappeared, taking with him all the sheep. He last heard of them in May one year ago when they were grazing near San Pedro. He will pay a liberal reward for information leading to the arrest of Baca and the recovery of the sheep.

I have two little grandchildren who are

teething this hot summer weather and are troubled with bowel complaint. I give them Chamberlain's Colic, Cholera and Diarrhoea Remedy and it acts like a charm. I earnestly recommend it to all children with bowel troubles. I was myself taken with a severe attack of bloody flux, with cramps and pains in my stomach, one-third of a bottle of this remedy cured me. Within twenty-four hours I was out of bed and doing my house work. Mrs. W. L. DUCAS, Bon-Accord, Hickman Co., Tenn. For sale by T. H. Burgess & Co., Druggists.

The best way to avoid scalp diseases,

hair falling out, and premature baldness, is to use the best preventative known for that purpose—Hall's Hair Renewer.

PRaise, ONLY,
FROM ALL WHO USE

AYER'S Hair Vigor

"Ayer's preparations are too well known to need any commendation from me; but I feel compelled to state, for the benefit of others, that six years ago, I lost nearly all of my hair, and what was left turned gray. After using Ayer's Hair Vigor several months, my hair began to grow again, and with the natural color restored. I recommend it to all my friends."—Mrs. E. FRANKLIN, Box 303, Station C, Los Angeles, Cal.

AYER'S Hair Vigor

PREPARED BY
DR. J. C. AYER & CO., LOWELL, MASS.

RECEIVED JUST IN TIME.

An Alabama Doctor's Narrow Escape From Being Buried Alive.

From Thomsville a thriving little town on the Mobile and Birmingham road, 102 miles north of this place, says the Mobile Register, comes a story that is heard but seldom, and then too much credence cannot be placed therein, for nine times out of ten there is a certain prevarication or a knack of distorting and stretching the facts that knocks the truth out of the tale. But here is a true story: One Sunday morning there died, to all appearances, at Thomsville, a well-known physician of that place—Dr. John W. Brand. He had lately removed from Randolph county, and was about 65 years of age. He suffered several weeks from various complications, and finally the watchers at his bedside, one of whom was his son, saw him draw, apparently, his last breath, and sink into the unconsciousness of death. The body was taken charge of by his friends, washed and dressed in the customary shroud, and laid out in the parlor. An hour or two later the few friends seated in the room with the corpse noticed a slight twitching of the fingers of the deceased. They were somewhat startled, but did not lose their self-possession and flee from the room, as is ordinary under such circumstances. Instead they repaired to the side of the doctor and watched him closely. Then a movement of almost the entire body was noticed—a slight convulsion, in fact. Then two pieces of money that had been placed over the eyes of the dead man fell off and he made an effort to open his eyes. This astonishing thing around him that life was still within the remains and the body was tenderly carried back to the bed from which he had been removed a short while before, a supposed corpse. Dr. Brand received every care and slowly revived. His first words, when apprised of his condition, were:

"How long was I dead?"

All preparations for the removal of the body to his home in Randolph county had been made by the son of Dr. Brand, and it was arranged to ship the remains by the Mobile and Birmingham train that passed Thomsville Sunday night. Dr. Brand's daughter was at the Salem depot to receive the body of her father, but instead was rejoiced to receive the welcome news that her parent was still alive.

For Over Fifty Years.

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

The best way to avoid scalp diseases, hair falling out, and premature baldness, is to use the best preventative known for that purpose—Hall's Hair Renewer.
